The Model V-15 III-GSL is a Shure Model V-15 Type III Improved Super Track "Plus" Stereo Dynetic Cartridge mounted in a Garrard head designed specifically to fit the Garrard SL series B automatic turntables. (Does not fit in SL75B or Zero 100).

Performance specifications for the V-15 III-GSL are contained in the booklet data sheet describing the Shure V-15 Type III (enclosed with the V-15 III-GSL packaging).

INSTALLATION

1. Remove present pickup head and insert Shure V-15 III GSL into phono arm. Care must be taken in removing and inserting the pickup head, so as not to cause damage to the stylus.
2. Balance arm as per Garrard instructions and set stylus force to recommended tracking force. (See Shure V-15 Type III Data Sheet for complete tracking force data). Forces greater than 1¼ grams should not be used.

STYLUS REPLACEMENT

See enclosed Shure V-15 Type III Data Sheet. The stylus replacement is Model VN35E.

PATENT NOTICE: Cartridge and stylus manufactured under one or more of the following U.S. Patents 3,055,988, 3,077,521, 3,077,522 and 3,463,889. Other patents pending.
